Serial No. 10,623,056

Date: July 27, 2004

Date Filed: July 16, 2003

Examiner:

Applicant: John King

Group: 3635

Title: Simulated masonry structures having
modular construction

Attorney No. 2115B

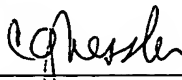

INFORMATION DISCLOSURE STATEMENT

Enclosed is Form PTO 1449. Copies of the patents listed therein are in the co-pending parent application file, Serial No. 10/213,832. Other patents, which applicant considered additive, but which examiner might want to consult, are in the parent application file, cited by examiner.

Applicant advises here of the infringement lawsuit which is still pending, relating to the Peggs patent reference. The June 20, 2004 disclosure about such in the parent case is attached and is hereby incorporated by reference into this disclosure.

Respectfully submitted,
JOHN KING

Title: Simulated masonry garden walls having
modular construction

Attorney No. 2115A

INFORMATION DISCLOSURE STATEMENT

1. Applicant encloses Form PTO 1449 and copies of certain prior art patents. Applicant encloses a check for \$180 in payment of fee. Please charge any deficiency, or credit any excess, to deposit account No. 14 0711, with a reference number of 2115A.

2. Applicant considers the patent document enclosures additive to the art of record, but submits them in prudence so they will be considered.

3. The owner of Peggs Pat. No. 6,418,675 has filed a law suit against a company in part owned by applicant, alleging infringement due to manufacture and sale of a product like that shown in Fig. 9 and 10, which product had a spike 88 in groove 92, for shipment. For purposes of avoiding large legal costs and for settlement, still to be finalized, applicant ceased using the spike retaining feature in his product. Applicant has cancelled claim 15 and renumbered claims 26, 27, which relate to such feature. Applicant does not consider this information to be material to patentability of the claims which were or are now pending, but makes this disclosure nonetheless.

4. Application Serial No. 10/623056, filed 7/16/2003, is a continuation in part application, relates to the present application.

Respectfully submitted,
JOHN KING
